

Mr. Robert Hallock, Deputy Regional Administrator
U. S. Department of Labor
Occupational Safety and Health Administration
1515 Broadway
New York, New York

Dear Mr. Hallock,

I would like to take this opportunity to thank you, Raoul Ilaw, and the representatives from the Avenel field office, for attending our recent EPA/OSHA meeting. From this meeting, a guidance document for our On-Scene Coordinators is being prepared. This document will provide the OSC with information regarding their responsibilities during a removal action.

The dialogue which we shared will allow both Agency's to meet their common goal - a safe and injury free work place.

Once again thank you very much.

Sincerely,

Fred N. Rubel, Chief
Response and Prevention Branch

433398
